SUMMARY

Recent B.Tech graduate in Computer Science with hands-on experience in web development, full-stack projects, and software programming. Completed internships at CODSOFT and Arcite, developing responsive web applications, e-commerce platforms, and utility projects using React JS, JavaScript, and Python. Skilled in frontend and backend integration, API usage, and clean coding practices, with strong problem-solving and teamwork abilities., I am eager to contribute to innovative development teams and grow as a full-stack web developer.

EXPERIENCE

Internship

Sep '24 — Oct '24

CodSoft

Kolkata, India

Supported the development of responsive, user-friendly web applications by building UI components, optimizing performance, and writing clean, standards-based code.

- Built responsive web applications using HTML, CSS, and JavaScript with cross-browser and mobile optimization.
- Collaborated with the team to solve technical issues and improve project workflows.

Full Stack Developer Trainee

Jul '25 — Dec '25

ARCITE PROJECT MANAGEMENT CONSULTANCY

Kochi, India

Developed Ops Board Lite and Personal portfolio using React JS. Built JS projects: Netflix Clone, Note App

- Applied responsive design, clean code practices, and API integration.
- Collaborated with peers to troubleshoot and enhance project workflows.

EDUCATION

Bachelor of Technology in Computer Science, BaseliOS Mathews II College Of Engineering (GPA: 7.27) 2021 — 2025

Kollam, India

SKILLS

Programming Languages JavaScript, Python

Web Technologies HTML, CSS, Bootstrap, Tailwind, React JS, Django REST framework, Django

Databases MySQL, PostgreSQL

Tools & Platforms VS Code, Figma, Git, GitHub

PROJECTS

Netflix Clone

- Developed using ReactJS, integrating the TMDB API to fetch and display dynamic movie content with features like trending carousels and trailers. Styled a responsive UI using CSS Modules, ensuring cross-device compatibility.

Personal Portfolio

- A modern personal portfolio application developed using React and JavaScript, showcasing projects, skills, and experience through an interactive and responsive user interface designed for seamless user engagement.

Weather App

- Built a responsive weather application using React and JavaScript that displays real-time weather data through API integration.
- Implemented city-based search and dynamic UI updates to provide accurate weather conditions and forecasts.

E-commerce App

- Developed using ReactJS, featuring product listing, cart functionality, and responsive UI.
- Implemented interactive components such as modals and sliders for improved user experience.
