Experience

Internship

CodSoft

Kolkata,India

- Built and launched three responsive web applications using HTML, CSS, and JavaScript, ensuring seamless functionality across different browsers and devices.
- Adopted industry-standard coding practices, writing clean and modular code to ensure maintainability and scalability..
- Collaborated with team members to ideate solutions, debug issues, and streamline workflows for smoother project delivery.

Internship

Arcite

Kerala,India

- During my internship at Arcite as a Python developer, I worked on various projects involving data processing, automation, and scripting.
- I gained hands-on experience with core Python libraries and contributed to tasks like building automation tools and writing efficient, reusable code.
- I also collaborated with team members in an Agile environment, participated in code reviews, and followed best practices in version control using Git. This internship enhanced my problem-solving skills and gave me practical exposure to real-world applications of Python,

Education

BTech Computer Science

Baselios Mathews College

Kollam, Kerala

2021 - 2025

- Bachelor of Technology in Computer Science
- CGPA:7.27 (No Backlogs)

Projects

- **Passenger Count** :Designed and implemented a passenger counting application using JavaScript, where I focused on creating a seamless user experience. The project allowed to update passenger counts, implement reset functionality, and ensure accurate tracking. I prioritized simplicity and responsiveness, making the app intuitive for users on both desktop and mobile devices.
- **AgroConnect** : It is a comprehensive agriculture app designed to empower farmers by providing essential services in a single platform that include features like providing loans and insurance to farmers and also an e-commerce platform using Python.
- **Portfolio Website** :Designed and developed my personal portfolio website using HTML and CSS, focusing on showcasing my skills, projects, and achievements in a visually appealing way. I emphasized responsive design to ensure it looks great on all devices and used CSS animations and effects, like smooth scrolling and hover interactions, to make the experience engaging and professional...

Certifications

- HTML, CSS, Javascript , ReactJS Course Completion Certificate From Infosys Springboard
- Web Development Internship From CodSoft and Arcite.

Involvement

- Member of IEDC at IEDC BMCE (2024)
- Member of FOSS at FOSS BMCE(2024)

Professional Summary

I am a B.Tech Computer Science Graduate with strong full-stack development skills. Experienced in building real-time projects using Python, Javascript and ReactJS. Proven ability in leading projects and delivering scalable solutions. Seeking a challenging role in software development to contribute technical and creative skills in a dynamic team environment.
